

AIIMS Ultrasound Trauma Life Support Course
<http://www.aiimsultrasound.org/courses.autls.asp>

“Care of multiply injured victim is challenging in pre-hospital, emergency department and intensive care settings. It becomes more difficult when you perform trauma resuscitation and advanced cardiac life support protocols in a blinded fashion. Ultrasound has been typically described as an extension of the palpating hand and a “visual” stethoscope during the physical examination, providing both anatomic and functional information complementary to the routine physical examination.”

The popular and highly sought after AUTLS course run by the experienced and motivated experts at AIIMS Delhi JPN Trauma centre, the apex trauma centre of the country is here at AIIMS Bhubaneswar on the 16th May 2015.

Course Faculty-

1. Dr Sanjeev Bhoi (Course Director)
Additional Professor and Incharge
Department of Emergency Medicine
JPN Apex Trauma Centre
All India Institute of Medical Sciences
New Delhi 110 029
2. Dr Deepak Agrawal, MBBS, MS, MCh,
Additional Professor, Neurosurgery & Gamma-Knife,
Chairman, Computerisation
All India Institute of Medical Sciences,
Ansari Nagar, new Delhi

Being organised as a part of the ongoing Courses in Emergency Management AIIMS Bhubaneswar (CEMA) series, we are strictly limited to 20 candidates.

Last date of registration is 1st May 2015.

Please find the course programme and registration form overleaf; contact course coordinator for any queries.

Looking Forwards to seeing you here, with lots of hands on training

Warm Regards,
The CEMA team!
