Sub: Procurement of Spy Glass Digital Visualisation System & Extra Hydraulic Lithotripter (Make: BOSTON Scientific) for the Department of GASTROENTEROLOGY at AIMS, Bhubaneswar on Proprietary basis - Inviting Comments thereon.

The Department of GASTROENTEROLOGY, AIMS, Bhubaneswar has requested for procurement of Spy Glass Digital Visualisation System & Extra hydraulic lithotripter (Make: BOSTON Scientific) from M/s Boston Scientific India Pvt. Ltd., Gurgaon- 122 018.

The Notice is being uploaded for general information of prospective manufacturer/Authorized Distributor/Dealers to submit their objection/proposal/comments, if any, on proprietorship of the item.

In case the product of any manufacturer/Authorized distributor/Dealer conforms to the enclosed specifications, they may submit their proposal for the supply of the same along with the brochures, point by point compliance of its enclosed specifications along with all documentary evidence. One quotation of the product may also be submitted.

The objections/comments/proposal should be sent in sealed cover to the Office of Sr. Procurement Cum Stores Officer, AIMS, Bhubaneswar (Odisha) – 751019 or through E-mail to spoc@aims-bhubaneswar.edu.in and spoc.aims@aims-bhubaneswar.edu.in and store@aims-bhubaneswar.edu.in, so as to reach on or before date: 20-03-2020 failing which it will be presumed that no other firm is interested to offer comments/protest/object and case will be decided on its merits.

The ref. no. – J-11057/0251/2019-20/S&P dt. 06-03-2020, due on dated: 20-03-2020 should be superscribed in sealed envelope.

Enclosure:

1. Proprietary Article Certificate from Indenting Officer, Annexure-I
2. Proprietary Certificate of M/s Boston Scientific Corporation, USA Annexure-II
3. Budgetary Quotation of Hq. ESCU/AIMS/ENDC/SP/CH/19022020/3312 Dated 19-02-2020 & ESCU/AIMS/ENDC/AUTH/19022020/3313 Dated 19-02-2020 stating their Authorized Dealer as M/s Boston Scientific Annexure-III
4. Brochure & Logsheet of the required products Annexure-IV

Sale, SpyGlass DS Financial Proposal

Dear Sir,

We would like to take the opportunity of introducing an advanced technology for therapeutic ERCP procedures to you, SpyGlass DS. The SpyGlass DS system allows you to realize the benefits of cholangioscopy/endoscopy as an extension of the ERCP procedure and advanced standard of care.

Below are the key features:

1. Enhanced visualization:
 - a. Digital sensor with 78x resolution
 - b. 60% wider field of view
 - c. Automatic light control and LED illumination
 - d. Dedicated irrigation and aspiration connections to clear field of view
2. Improved visibility:
 - a. Redesigned working channel for guiding accessories
 - b. Fixed image for consistent viewing
3. Simplified set up:
 - a. Setup time under 5 minutes
 - b. Equipment designed to fit in a standard endoscopy cart
 - c. Integrated digital sensor - no fragile optical scope to load or reprocess

AIIMS Bhubaneswar is a premier institute in the field of advanced endoscopy in India, and we absolutely value our association with you, because we believe that together we can make a difference in patients' life.

Please also find following documents attached with this proposal:

1. Regulatory Declaration with AQC / CMC details
2. PAC Certificates
3. Product Brochure

Please refer below for the financial proposal (Budgetary quotation)

KeyScan DS – Direct Visualization System Financial Proposal:

The proposal outlines detailed list of components that form the Capital Equipment along with the list of consumables. Pricing for the Capital Equipment and the consumables is mentioned in the Annexure as follows:

Annexure A:

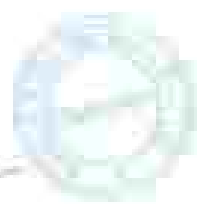

Sr. No.	Name Of the Product	Price Offered (exclusive of all applicable taxes)
1.	Topgator DS System (with 3 year warranty)	1,009,408
2.	Key file	14,000
3.	SPYSCOPE DS II ACCESS AND DELIVERY CATH	1,411,000

Quotation Terms & Conditions

- The quotation is valid till 31st May 2020
- Supplies to be made by our authorized dealer: **M/s UNIQUE DISTRIBUTORS, BHUBANESWAR**
- Above mentioned prices are exclusive of all applicable taxes. The same shall be specified as per the statutory taxes applicable at the time of invoicing.
- OMR @ 5% p.a of basic system cost exclusive of all applicable taxes post 3 year warranty.
- Supply within 7 days from the date of receiving the supply order.

Please contact the undersigned for any clarification and queries.

AutoTouch Bipolar Electrohydraulic Lithotripsy System Financial Proposal

Dear Sir,

We hereby would like to introduce AutoTouch Bipolar Electrohydraulic Lithotripsy System, a proven technology for fragmentation of Biliary Stones when used under guidance of SpyGlass DS Cholangio-Fibroscoposcopy System.

Below are the key features:

- Designed to provide improved patient safety, increased stone treatment effectiveness and ease of operation.
- Automatic Power Range Regulation
- Smart Sensing Element
- Simplified Operation
- greater stone fragmentation capability
- Sterile disposable probes for all stone types
- Lightweight and portable
- Color touch screen control

AIIMS Bhubaneswar is a premier teaching institute in the field of advanced endoscopy in India, and we absolutely value our association with you, because we believe that together we can make a difference in patients' life.

Please also find following documents attached with this proposal:

- 1) Budgetary Quotation with CMC details.
- 2) PAC Certificates.
- 3) Product Brochure.

Please refer below for the financial proposal (Budgetary quotation).

The SpyGlass® DS System

The SpyGlass DS System enables high resolution imaging and therapy during an endoscopic retrograde cholangiopancreatography (ERCP) procedure to target biopsies and fragment stones, which may result in more efficient evaluation and help reduce the need for additional testing and repeat procedures compared to traditional ERCP, and enable patients to receive treatment sooner*. The system enables direct visualization of the bile and pancreatic ducts and can help obtain biopsy specimens, lead to the diagnosis of abnormalities, and guide stone therapy.

Since its launch in 2015, the SpyGlass DS System has impacted more than 80,000 patient lives in more than 65 countries.

About Cholangioscopy

The SpyGlass DS System

A Full Suite of Solutions

Outstanding Information

Additional Resources

The SpyGlass[®] DS System provides important clinical, operational and economic benefits for managing patients with complex pancreaticobiliary disorders, such as difficult stones and indeterminate strictures.

85%
ALTERED

In a clinical study of 289 patients, clinical management was altered in 85% of patients undergoing diagnostic ERCP with Cholangioscopy[®].

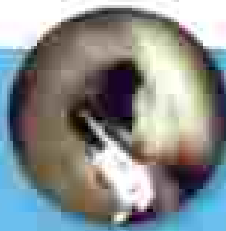

95%
SUCCESS

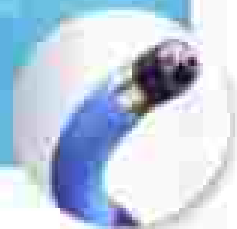

95% stone clearance rates may reduce the need for more invasive and costly procedures, which may have a significant impact on patient outcomes and patient satisfaction.

May allow faster, more definitive stone diagnosis by allowing direct visualization of stones and biliary strictures.

As an entirely new technology, SpyGlass DS is a significant advancement in the management of complex biliary diseases, offering a minimally invasive approach to a variety of biliary disorders.

New Accessories

The SpyGlass DS System

A Full Suite of Solutions

Endoregry Information

Additional Requirements

An Expanding Suite of Compatible Accessory Devices

SpyGlass™ Retrieval Basket

The new SpyGlass Retrieval Basket can be used to capture and remove biliary and pancreatic stones and stone fragments visualized with the SpyGlass DS System.

Stone Management

Direct visualization stone clearance using EHL has been shown to be highly effective with demonstrated procedural success with single session stone clearance rates of ~ 95%

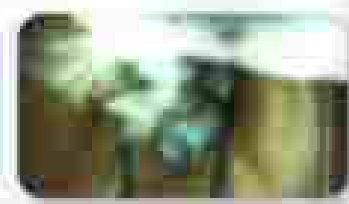

Top endoregry study patients (2012) were treated to single session stone clearance. For each stone, the success rate was 95%.

Achieving single session stone clearance and reducing the need for a repeat procedure(s) may deliver greater patient satisfaction and decrease unnecessary procedural costs.

SpyGlass Retrieval Snare

The New SpyGlass Retrieval Snare is designed to enable efficient capture and removal of foreign bodies in the biliary and pancreatic ducts, such as migrated plastic stents, during an ERCP procedure.

Capture and removal of a biliary plastic stent using the SpyGlass Retrieval Snare.
