Dated: 07/03/2020

Sub: Procurement of ARGON PLASMA COAGULATOR (Make: Medtronic) for the Department of SURGICAL GASTROENTEROLOGY at AIIMS, Bhubaneswar on Proprietary basis - **Inviting Comments thereon.**

The Department of SURGICAL GASTROENTEROLOGY, AIIMS, Bhubaneswar has requested for procurement of ARGON PLASMA COAGULATOR (Make: Medtronic) from **M/s India Medtronic Pvt. Ltd., Gurgaon- 122 001.**

The Notice is being uploaded for general information of prospective manufacturer/Authorized Distributor/Dealers to submit their objection/proposal/comments, if any, on proprietorship of the item.

In case the product of any manufacturer/Authorized distributor/Dealer conforms to the enclosed specifications, they may submit their proposal for the supply of the same along with the brochures, point by point compliance of the enclosed specifications along with all documentary evidence. One quotation of the product may also be submitted.

The objections/comments/proposal should be sent in sealed cover to the Office of Sr. Procurement Cum Stores Officer, AIIMS, Bhubaneswar (Odisha) – 751019 or through E-mail to spo@aiimsbhubaneswar.edu.in, aso.jkbiswal@aiimsbhubaneswar.edu.in and stoke_lovneet@aiimsbhubaneswar.edu.in, so as to reach on or before **date: 21-03-2020** failing which it will be presumed that no other firm is interested to offer comments/protest/object and case will be decided on its merits.

The ref. no. – J-11083(001)/2019-20/S&P dt: 07-03-2020, due on dated: **21-03-2020** should be superscripted on sealed envelope.

Enclosure:

1. Proprietary Article Certificate from Indenting Officer. **Annexure-I**
2. Proprietary Certificate of M/s Medtronic **Annexure-II**
3. Brochure & Literature of the required product **Annexure-III**
4. Price Quotation Dated 02-03-2020 stating their Authorized Distributor as M/s Sushruta Surgicals Pvt. Ltd. **Annexure-IV**

Regulatory Affairs Operations Specialist

Specification for MEDTRONIC WEM ARGON 4(Compatible with Valleylab FT10)

- . Alphanumeric backlight liquid crystal display measuring 480 x 240 pixels to show:
 - - self-test
 - - leaks
 - - flow (l/min)
 - - operation mode
 - - amount of gas in cylinder
 - - alarm for lack of gas
 - - operation errors
- . Flow adjustments between 0 and 10 l/min in 0.1 l/min increments
- . Interactive menu on the display
- . 4 modes of operation:
 - - conventional cut and coagulation
 - - argon gas cut and coagulation
- . Operation by footswitch or manually controlled pencil
- . Connection for 2 automatically interchangeable gas cylinders
- . Panel key to scroll through modes of operation
- . Purge key located on the panel
- . Allows for use of Triple Option pencil (conventional cut and coagulation, and argon plasma coagulation)
- . Provided with 2 pressure regulation stages by means of overpressure on output
- . Compatible with accessories
- . Automatic detection of gas leak
- . Automatic verification and display of amount of gas in each cylinder
- . Online indication on LCD display of faults and corrections

Accessory Kit

- . 1 footswitch
- . 5 disposable pencils each for open and laparoscopy
- . 2 empty cylinders, 40- 50 L each
- . The kit of accessories can be changed to meet user's preference.

Additional information

- . Maximum flow:
- . Gas Type: 99,998% pure Argon
- . Gas cylinder: 1 m3 capacity
- . 1 Cart

PERFORMANCE MEETS VALUE.

WEM Argon 4 Argon Plasma Coagulator

The argon plasma coagulator offers value for your patients by delivering quality and performance in the operating room. By combining the advanced functionality of an argon coagulator with built-in safety features, you can offer positive patient outcomes associated with argon electrosurgery at an affordable price.

CONTROL

Achieve the clinical performance you need with individual, customizable argon flow settings for cut and coagulation that ensures the right flow is delivered.

SAFETY

Built-in safety features including internal argon gas filters for gas purity, in addition to auto-testing that ensures quality and performance each time the hardware is activated.

SIMPLE

Streamlined and easy setup from universal voltage adapter and minimum installation requirement.

GRIFF

Bring the hemostasis benefits of argon gas to your electrosurgery procedures with the multifunctional argon hand piece Griff.

VALUE

Reduce capital spend by incorporating laparoscopic, open surgery and endoscopic procedures settings with one trusted argon coagulator.

PERFORMANCE

Features 2 argon tanks for a longer procedural time and a gas-level gauge to provide you confidence in your procedure.

WEM

WEM Argon 4 Argon Plasma Coagulator

Improving the standard of care for **advanced surgical procedures in the operating room** by making positive outcomes associated with argon electrosurgery accessible.

Argon 4 plasma coagulator

Excellent coagulation
in surgeries with large bleeding

WEM EQUIPAMENTOS
ELETRÔNICOS LTDA.

FDA
Approval
#K100669

Certified by accreditation organization
and by Directive 93/42/EEC.
The company's quality system
is ISO 9001:2008 and ISO 13485:2003 certified.

BPF
Brazilian Good
Manufacturing Practice

Reduces surgical time and the use of the electrosurgical unit

Argon 4 plasma coagulator

Provided with two automatically interchangeable argon gas cylinders

The Argon 4 coagulator is another smart solution provided by WEM, developed to enhance safety in surgeries with major bleeding.

Fully microprocessed, this coagulator leads to reduced surgical time and use of the electrosurgical unit, as well as excellent coagulation and lower risk of infection.

During procedures, the equipment directs the argon beam precisely onto the tissue, with no surface contact, and results in fast hemostasis and better healing.

There are 4 operation possibilities: conventional cut and coagulation, and argon gas cut and coagulation.

The alphanumeric backlight liquid crystal display shows operational data, such as gas flow control at increments of 0.1 liter per minute, and the audiovisual alarm for end of gas.

The Argon 4 coagulator can be used together with WEM surgical units in large procedures. It is recommended for cardiac surgeries, transplants and liver resection in addition to trauma, orthopedic, thoracic and urological surgeries, among other highly complex procedures.

Features

- alphanumeric backlight liquid crystal display measuring 480 x 240 pixels to show:
 - self-test
 - leaks
 - flow (l/min)
 - operation mode
 - amount of gas in cylinder
 - alarm for lack of gas
 - operation errors
- flow adjustments between 0 and 10 l/min in 0.1 l/min increments
- interactive menu on the display
- 4 modes of operation:
 - conventional cut and coagulation
 - argon gas cut and coagulation
- operation by footswitch or manually controlled pencil
- connection for 2 automatically interchangeable gas cylinders
- panel key to scroll through modes of operation
- purge key located on the panel
- allows for use of multipurpose, disposable, manual electrosurgical pencil (conventional cut and coagulation, and argon plasma coagulation)
- provided with 2 pressure regulation stages by means of overpressure on output
- compatible with accessories by other manufacturers
- automatic detection of gas leak
- automatic verification and display of amount of gas in each cylinder
- online indication on LCD display of faults and corrections
- Initialization Check (self-test)

Technical specifications

Power supply	100-240 VAC / 50-60 Hz automatic selection
Maximum electrical power	200 VA
Dimensions	14 x 30 x 40 cm (H x W x L)
Weight	7.3 kg
Gas type	99.998% pure argon
Gas cylinder	1 m ³ capacity

ANVISA registration nr. 10247670033
