

National Symposium on “Prediction, prevention and treatment of Genetic disorders”

27th February
2016

Venue
Mini auditorium,
AIIMS, Bhubaneswar

Department of Physiology,
All India Institute of Medical Sciences, Bhubaneswar

Physicians with an interest in genetic disease; medical and human geneticists; genetic counsellors; laboratory geneticists and workers; researchers; educators; physicians of all specialties; students, trainees and fellows; clinical nurses; physician assistants, dietitians, public health workers and others with an interest in the science and art of medical genetics.

This one day national symposium will provide excellent platform to our participants to interact with stalwarts in the field of medical genetics and improve their understanding in the areas related to application of medical genetics in everyday practice (screening, diagnosis, treatment, and prevention) in both adults and children, in addition to reviewing some clinical applications in complex disease of public health importance.

Confirmed Speaker

Dr Ashwin B Dalal
Head, Diagnostics Division
Centre for DNA Fingerprinting
and Diagnostics, Hyderabad,
Andhra Pradesh 500001.INDIA

Dr. Arundhati Sharma
Professor, Anatomy
All India Institute of Medical
Sciences, Delhi
New Delhi - 110 029, India

Dr Kausik Mandal,
Assistant Professor,
Department of Medical Genetics,
Sanjay Gandhi Postgraduate Institute
of Medical Sciences, Lucknow,
226014. INDIA

Dr Prajnya Ranganath
Assistant Professor,
Department of Medical Genetics,
Nizam's Institute of Medical Sciences,
Punjagutta, Hyderabad 500082. INDIA.

Dr Priti Dubey
DNB (O&G), Fetal Medicine Consultant.
Director, Odisha Fetal Medicine Centre,
Bhubaneswar

Topics to be covered

- Basics of Genetics- Gene/Genome
- Prenatal diagnosis
- New born screening
- Haemoglobinopathies
- Congenital anomalies
- Molecular Cytogenetic analysis
- Molecular Genetics
- Medical Genetics and Personalized Medicine in Clinical Practice
- Sequencing and NGS
- Medical Genetics in public health
- Utility of Stem cell in medicine
- Setting up laboratory facilities for Medical Genetics

Credit hours will be provided
